

Universal Systems Model Poster/Presentation

Create a visual representation (poster, PowerPoint, model... Anything visual, be creative) of any finished product identifying the universal systems model parts. Expect to present these Thursday, 8/8 during class.

- Step 1 Choose a finished product. Must be approved by the instructor

- Step 2 Research and find all of the inputs.
 - » People
 - » Materials – Exhaustive list
 - » Tools or Machines
 - » Energy
 - » Information
 - » Finances
 - » Time

- Step 3 Research the processes.
 - » Problem Solving
 - » Production – All should be listed
 - » Management

- Step 4 Research other outputs.
 - » Intended or Unintended
 - » Desired or Undesired
 - » Immediate or Delayed

- Step 5 Research for various forms of feedback this company may obtain.

- Step 6 Create the Visual representation of the system utilizing pictures, diagrams or any other strategies on a poster board.

Universal Systems Model Poster Rubric				
Inputs (20pts)	Processes (20 pts)	Outputs (20 pts)	Feedback (20 pts)	Posters visual appeal (20 pts)
2 to 3 examples of each kind	1 of each type	Other than the product	Company specific	Does the poster convey the information well
